www.jltrade.lu

We base our expertise on major international brands that have trusted us.

Who are we?

Established in Luxembourg since 2023, JL Trade is dedicated to providing the shooting industry, law enforcement, armories and outdoor enthusiasts, in Belgium and Luxembourg, with a large number of leading brands on the market.

Our business divisions provide a specialist approach to specific markets including gunsmiths, shooting ranges, law enforcement, military and B2B customers.

Our products

Our product line is extensive as we strive to provide a unique shopping experience for our customers and includes firearm accessories such as suppressors/moderators, flashlights, optics, apparel, footwear and a wide array of related accessories. Our law enforcement and Military division also offers a range of body armor solutions, shields and other products designed for this market.

We are also developing an increasingly popular range of Outdoor products.

Always more

At JL Trade, we are committed to a process of continuous improvement and we are required to comply with a number of certifications and accreditations.

PRS GEN 3 STOCK

PRS Generation 3 stock for AR15/M16 and AR10/SR25 precision rifles. Easily adjustable in depth and height thanks to the adjustable cheek rest. Made in the USA.

MBUS PRO SIGHT

This sight attaches to the front of the assault rifle, directly onto a Picatinny rail. It can be folded down to use as an aiming aid.

STR CARBINE MIL-SPEC STOCK

Adjustable replacement stock for AR15/M4 rifles, Mil-Spec version for military stock tubes. The STR® stock has an improved cheek rest and 2 waterproof storage tubes for batteries. The system locks to prevent tampering, making the STR® lightweight, practical and robust.

MS3 SINGLE QD GEN2 SLING

Second-generation Magpul 1-point sling. Easily convertible to a 2-point configuration, this sling features a QD mounting system that allows it to be clipped directly onto most AR15/M4 type lower rifles.

MBUS OFFSET 45° SIGHT

This remote sight is fixed to the front of the assault rifle, directly onto a picatinny rail. It can be folded down and used at a 45° angle. If you are right-handed, you can switch your weapon to the left to use this secondary sighting system, which is perfectly suited to close-range shooting.

5 SLOTS POLYMER M-LOK RAIL

This lightweight polymer Picatinny rail section with 5 slots is designed for use with M-LOK® handguards to allow the attachment of various accessories such as lights, vertical handles, etc.

MAGPUL PICATINNY BIPOD

The Magpul bipod with Picatinny mount offers versatility and strength at excellent value for money. Manufactured to MilSpec standards from 6061 T6 aeronautical aluminium and polymer, it is lightweight and robust.

AFG ANGLE FORE GRIP

Angled front grip compatible with most handguards fitted with M1913 Picatinny Rail. The AFG takes into account the natural position of the hands and offers greater comfort and ergonomics to the shooter with the interchangeable finger support.

GUNBUTTER

TRACKR™ Electronic Earmuffs

TRACKR™ electronic earmuffs offer you a compact design for added comfort and size for all your environments where you need to hear and protect your hearing at the same time.

The clear, smooth sound enhancement allows you to hear what you want while protecting your hearing from harmful loud sounds.

TRACK BLU EARMUFFS

TRACKR™ Blu earmuffs offer advanced sound enhancement, hearing protection and Bluetooth audio, all in a slim, compact earmuff for all your professional ear needs. Unique Number Rating (SNR) of 27 dB

TRACKR™ Passive Earmuffs

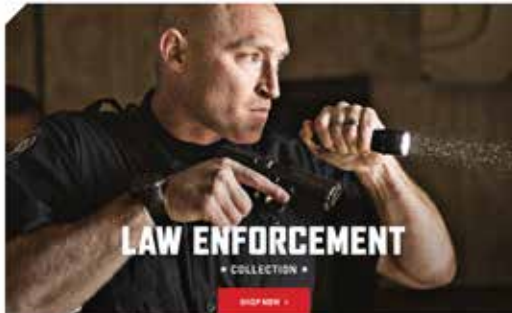

TRACKR™ passive earmuffs give you a compact design for comfort and size for use in noisy environments where you need to protect your hearing from harmful loud sounds.

XP Defender Ear Plugs

XP Defender earplugs offer you one of the most innovative earplug solutions to date. Simply insert these little earplugs into your ears, then decide which mode you want to be in.

X300

A high-performance LED lamp generating 1000 lumens of TIR-focused white light with a tight beam, extended reach and significant surround light for peripheral vision.

Mini Scout Light Pro w/ Z68 Tailcap

A high-performance lamp projecting 500 lumens of bright, TIR-focused light - ideal for short and long range missions while still allowing space for multiple accessories on your weapon.

Surefire M600U Ultra Scout Light

A compact weapon light boasting a maximum output of 1000 lumens and a lightweight aerospace aluminum body for durability and versatility - easily attachable to a Picatinny rail.

Stiletto

A sleek and versatile rechargeable flashlight featuring a maximum output of 650 lumens and a slim, ergonomic design for easy pocket carry and comfortable handling in various situations.

Aviator

A compact, dual-output flashlight tailored for aviation and tactical use, featuring white light for illumination and colored options for night vision preservation, housed in a rugged aluminum body with a two-stage tactical tailcap switch.

FAST Aimpoint Micro Mount

A rugged and lightweight mounting solution designed to securely attach Aimpoint Micro optics to Picatinny rails. Its streamlined design offers quick and intuitive aiming capabilities while maintaining a low profile for enhanced maneuverability in dynamic environments.

FAST Micro S Mount

A precision-engineered mounting solution crafted specifically for the Aimpoint Micro series optics, offering a low-profile design and exceptional durability.

FAST Comp Series Mount

An advanced Picatinny rail mounting solution engineered specifically for Aimpoint Comp series optics, featuring precise alignment and a rugged, low-profile design for optimal performance in tactical applications.

Fusion Micro Hub 2.0

A modular mounting platform engineered for seamless integration of multiple aiming devices and accessories, ensuring precise alignment and secure attachment in tactical configurations.

KPOS Scout

A compact and durable chassis system designed to convert select Glock pistols into a PDW (Personal Defense Weapon) platform, featuring a folding stock and compatibility with various accessories.

Cobra

A quick deployment folding glock stock, featuring customizable front and rear strap configurations for enhanced ergonomics and control. It ensures superior handling and durability for demanding tactical applications.

PACT Club Timer III

A precision electronic shot timer used for tracking and analyzing shooting performance, offering features like adjustable sensitivity and a large digital display for accurate timekeeping in competitive shooting events. Its durable construction and user-friendly interface make it an essential tool for shooters seeking to improve their skills.

PACT Case

Taq-Strap

An innovative medical device retention system, ensuring rapid deployment and reliable accessibility in critical situations, enhancing user readiness in emergency medical scenarios.

Photon Holster

A holster providing secure concealed carry with adjustable retention and customizable cant, featuring durable construction and a sleek design for comfortable everyday wear.

Rapid Force Holster

A concealed carry solution engineered with robust materials and adjustable retention. Its advanced design incorporates a customizable cant and ride height for tailored comfort and optimal firearm presentation.

Gear Tie

A durable reusable rubber twist tie, engineered for securing, organizing, and attaching gear with ease. It offers reliable and adaptable solutions for outdoor enthusiasts and professionals alike.

SlideLock Carabiner

A robust and versatile locking carabiner, featuring a unique slide-to-lock mechanism for secure attachment and quick release. Crafted from durable materials, it offers reliable performance for a variety of outdoor and everyday carry applications.

Radiant 170 Rechargeable Headlamp

A high-performance lighting solution featuring a maximum output of 170 lumens and multiple brightness settings offering reliable hands-free lighting for outdoor adventures and professional tasks.

S-Biner Dual Carabine

Featuring two independent gates for secure attachment and quick access to keys, gear, and accessories, this carabiner offers reliable functionality in outdoor and everyday settings.

VIEW RANGE

5 PRIMAL 10×42 ED

These binoculars offer exceptional clarity and precision, featuring Extra-Low Dispersion glass and a rugged, waterproof construction for superior performance in various outdoor environments.

Primal Scope Series

A range of rugged and precision-engineered optics tailored for hunters and shooters, boasting advanced features and durable construction to excel in diverse shooting environments.

Tactix Scope Series

With precision and versatility tailored for tactical applications, this series features a rugged construction and advanced features for superior performance in challenging environments.

Conquer Scope Series

Engineered for accuracy and versatility, this scope series is tailored for hunters and long-range shooters, offering advanced features and rugged construction for reliable performance in demanding conditions.

Tactix ARD (Anti-Reflective Device)

A precision-engineered red dot optic designed to reduce glare and reflections, enhancing stealth and optical clarity for tactical shooters.

Tactix EED (External Elevation Dial)

A precision-engineered red dot optic crafted to facilitate quick and precise elevation adjustments for shooters, enhancing accuracy and efficiency in the field.

Up Gun Case

A rugged and customizable firearm storage solution, meticulously designed to provide maximum protection and organization for firearms and accessories during transportation or storage.

The Slickster

A minimalist plate carrier designed for streamlined mobility and adaptability in dynamic tactical environments, featuring a low-profile design and modular compatibility for exceptional comfort and versatility.

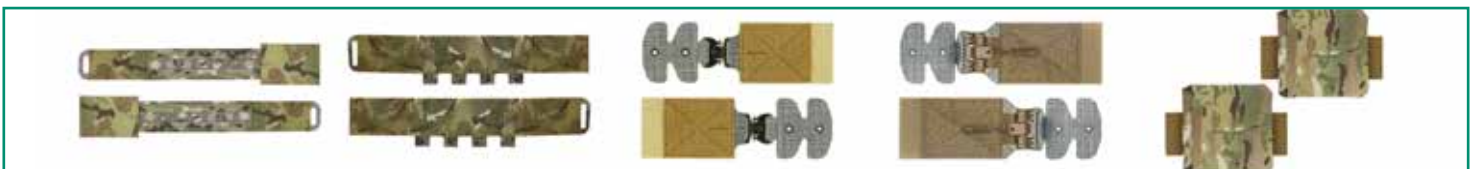

FCPC V5 Base

A versatile plate carrier with modular compatibility and streamlined design for enhanced mobility and customization in tactical operations, ensuring reliable performance and comfort in demanding environments.

The Slingster

A high-performance rifle sling, meticulously engineered for versatile carry options and quick adjustments, ensuring optimal comfort and stability during dynamic shooting scenarios.

ADAPT Cumberbunds

Advanced modular accessories designed to enhance the functionality and adaptability of plate carriers, featuring customizable configurations and durable construction for optimal performance in dynamic tactical environments.

The Bison Belt

A rugged and adjustable belt system, designed for reliable load-bearing support and versatility in tactical applications. It offers secure attachment points for pouches and accessories, enhancing user comfort and efficiency in the field.

Soft Shell Scorpion Magazine Holder

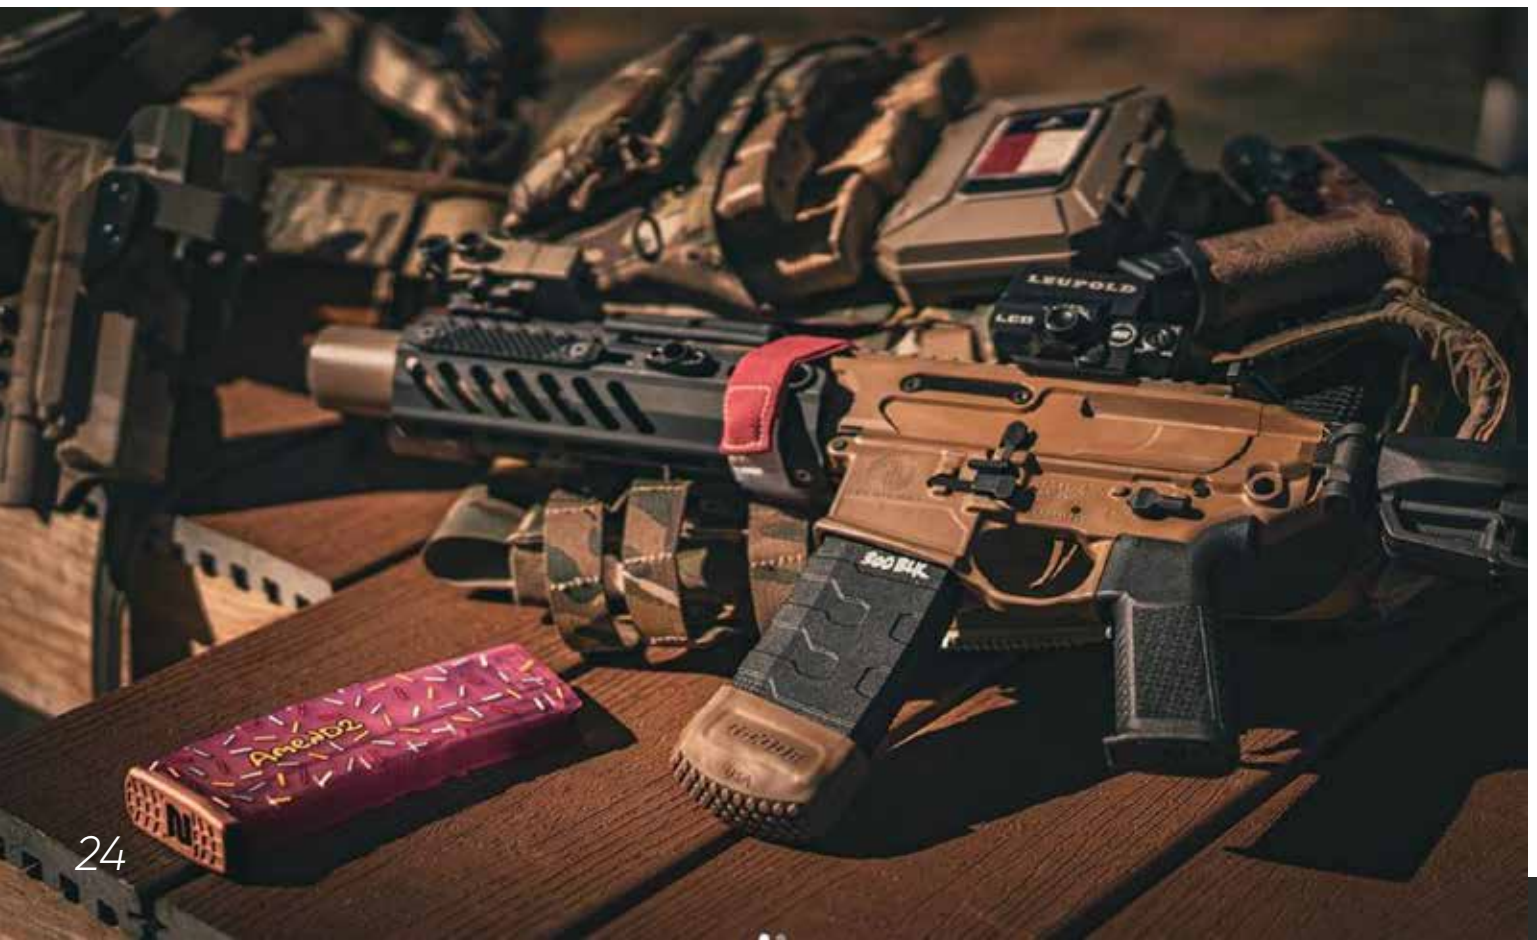

- Configurable to suit your mission needs whatever your port preference.
- Flared opening for easy insertion.
- Moulded channels protect the lanyard from wear and tear.
- Back plate with copper holes for quick change of mounting system.
- Materials do not absorb water in the event of contact.
- Compact, lightweight construction
- Available for Rifle or pistols

Firebase No Slip Shooting Base

An accessory engineered to deliver a stable shooting platform, boasting a rugged non-slip surface and versatile design for improved accuracy and comfort in high-intensity shooting scenarios.

**SOLD

PAIRS**

Bang Box

A compact and durable ammunition storage solution, meticulously designed to securely organize and transport cartridges, ensuring quick access and reliability for shooters in dynamic environments.

RTI Optimal Drop Pistol Platform

A high-quality holster attachment designed for secure and versatile firearm carry, featuring durable construction and adjustable retention for optimal comfort and performance in various tactical situations.

Phenom Holsters

Cutting-edge firearm holsters engineered for precision fit and quick draw capabilities, boasting durable materials and customizable features for optimal performance in tactical scenarios.

XSR Holster

A state-of-the-art firearm holster designed for precise fit and rapid deployment, featuring rugged construction and customizable retention options for superior performance in tactical engagements.

Juggernaut Case™

PROTECT - MOUNT - CONNECT

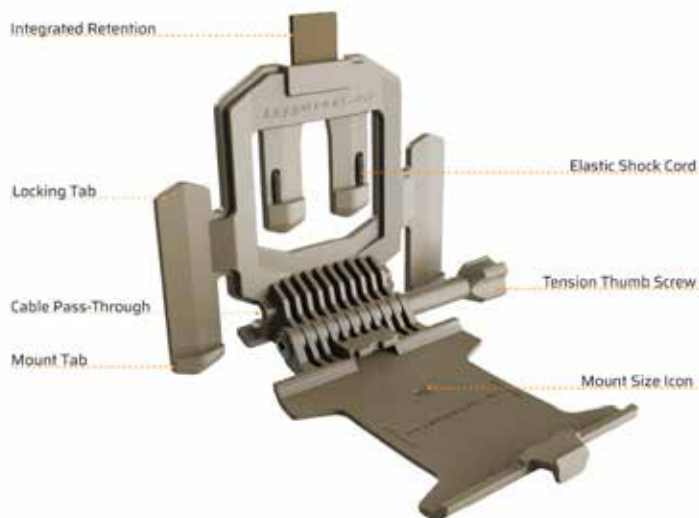

OPRT case

A robust and customizable protective solution, meticulously engineered to safeguard sensitive equipment during transport or storage in harsh environments, ensuring reliability and durability for mission-critical gear.

Sternun Mount

A versatile accessory designed for hands-free carrying of equipment, featuring a secure and adjustable harness system for optimal comfort and stability during dynamic operations.

HARTMANN

Trauma Bandage 10cm - 4inch (Israeli)

A compact and highly absorbent medical dressing, crafted for rapid wound management in emergency situations, offering versatility and effectiveness in controlling bleeding and protecting wounds.

Trauma Bandage 15cm - 6inch (Israeli)

A compact and highly absorbent medical dressing, crafted for rapid wound management in emergency situations, offering versatility and effectiveness in controlling bleeding and protecting wounds.

Field Desk

A rugged and portable workspace solution, designed for outdoor use in challenging conditions, featuring durable materials and weather-resistant construction for reliable performance in the field.

Notebook 8.2 x13.3cm

A durable and water-resistant writing pad, crafted to withstand extreme outdoor conditions, ensuring reliable note-taking and documentation in any environment.

Notebook 10x15 cm

All-weather pocket notebook to protect your notes and drawings in the field. Water-resistant, so you can write in the rain with any pencil.

All Weather Clicker Pen

A rugged writing instrument engineered to write smoothly in wet and extreme conditions, featuring a pressurized ink cartridge and durable construction for reliable performance in outdoor environments.

Compact folding Kestrel tripod (18»-57») with bag and clamp. A tripod fitted with a Kestrel clamp that can accommodate any Kestrel model or remove the clamp to fit the windvane (optional). It is supplied with a carrying case and a clamp.

Kestrel 5700 Elite Weather Meter with Applied Ballistics and LiNK

An advanced handheld device engineered for precise environmental measurements, ballistic calculations, and wireless connectivity. Offering comprehensive weather data and accurate ballistics solutions, it's an essential tool for shooters and outdoor enthusiasts.

Kestrel 5700 Ballistics Weather Meter with LiNK

A compact and precise handheld device tailored for shooters, providing comprehensive weather data and advanced ballistic calculations. With seamless wireless connectivity, it ensures accurate performance and enhanced situational awareness in the field.

2700 Ballistics Weather Meter (Coyote)

A compact and precise handheld device engineered to provide shooters with essential weather data and advanced ballistic calculations. Offering reliable performance and intuitive operation, it enhances accuracy and effectiveness in various shooting scenarios.

WEATHER STATION 2500 SA

The KESTREL 2500 NV is the perfect anemometer for any activity requiring accurate assessment of the environment.

It features red background illumination to help the user maintain natural night vision.

It provides barometric pressure, altitude, temperature and wind speed.

LINDNERHOF

PART OF MEHLER SYSTEMS

Plate Carrier MX042

A robust and customizable body armor system, featuring modular attachments and durable construction for optimal protection and versatility in tactical operations.

CURV Belt Cobra LT562

A high-performance tactical belt system, featuring a lightweight and durable construction with a Cobra buckle for secure attachment. Engineered for comfort and versatility, it provides reliable support and load-bearing capabilities in various operational environments.

Multi Caliber Rifle Mag Pouch PA119

A versatile and durable magazine carrier, designed to securely hold various rifle magazines with adjustable retention. Featuring rugged construction and compatibility with different calibers, it ensures reliable access and organization of ammunition in tactical situations.

Dump Pouch Small PA056-S

Lindnerhof's small dump pouch is a very compact, reliable, and easily attachable part of your gear, thanks to the PALS system. This pouch allows safe and quick bagging of empty mags, medical waste, and similar material.

Releasable Plate Carrier LT025/5

An advanced body armor system with a quick-release mechanism, providing rapid removal in emergency situations. Engineered for durability and comfort, it offers reliable protection and flexibility for tactical operations.

A precision-engineered system designed to convert Glock pistols into carbine-style firearms, offering enhanced stability, accuracy, and customization options.

bolleé

SAFETY

Rush+ Clear Lens PC

A high-performance protective eyewear featuring a clear polycarbonate lens designed for optimal visibility and protection against impacts and debris.

Combat Kit

A comprehensive protective eyewear system tailored for tactical operators, comprising ballistic-rated glasses with interchangeable lenses and a protective case.

Raider Kit

An advanced protective eyewear system designed for tactical use, featuring ballistic-rated lenses and durable construction to withstand high-impact situations.

X810 Ballistic Goggle

An advanced protective eyewear solution engineered to meet stringent ballistic standards, providing superior protection against projectiles and debris. Featuring a durable frame and impact-resistant lenses, it offers unparalleled eye protection and clarity in demanding tactical environments.

B200 Anti-Fog Kit

A specialized liquid designed to prevent fogging on eyewear lenses, ensuring clear vision in challenging environments. This kit provides long-lasting protection and optimal visibility for enhanced safety and performance.

TACTICAL FOODPACK®

VS20i

An advanced biometric handgun safe featuring robust construction and fingerprint recognition technology for secure firearm storage. With its compact design and tamper-proof features, it offers reliable protection and quick access to firearms for responsible gun owners.

Bluetooth 2.0 Smart Key Nano Touch (Biometric)

An innovative security solution, integrating biometric fingerprint recognition and Bluetooth connectivity for advanced access control to firearm safes.

Biometric WiFi MX Series

An advanced firearms safe featuring biometric fingerprint recognition and WiFi connectivity for secure and convenient access. With robust construction and customizable settings, it offers reliable protection and remote monitoring capabilities for firearm storage.

Twin Pistol Rack

A compact and durable storage solution designed to securely hold two handguns within a safe or storage compartment. Engineered with precision and compatibility, it ensures organized and accessible firearm storage while maximizing space efficiency.

DS2i Smart Station

An advanced docking station designed to charge and organize electronic devices, featuring USB ports and Bluetooth connectivity for seamless integration of Vaultek accessories.

MoG

we create for all who protect us

2ndSkin Gloves

Heavyweight needle protection glove in synthetic leather based on highly approved CPN technology in palm of hand and light impact on knuckles.

High Abrasion Gloves

Specialized tactical gloves engineered for superior durability and protection in high-impact environments. Featuring reinforced materials and ergonomic design, they offer reliable hand protection and enhanced grip for demanding tactical operations.

TARGET Polar Winter Gloves

Advanced cold-weather tactical gloves designed to provide superior warmth and protection in harsh winter conditions. With specialized insulation and durable materials, they offer reliable performance and comfort for extended use in demanding environments.

MASTERS OF GLOVES

Heavy Chest Rig

A robust and versatile load-bearing system, meticulously designed for tactical missions. Featuring modular attachment points and adjustable straps, it offers customizable organization and comfortable carrying of heavy equipment for operators in the field.

Thorax Plate Bags

Designed for comfort and adaptability, it features A.M.P. chin protection and Thorax thermoform padding. With PTT anchor points and MOLLE chest fields, it seamlessly integrates with gear for any mission.

Incog X Holster G17/19 Weapon Light with Mag Caddy

An innovative holster system featuring a built-in magazine caddy for additional ammunition storage. It offers secure retention and quick access to both the firearm and spare magazine.

Incog X Holster G17/19 Nonlight

A compact holster system featuring a low-profile design and adjustable retention, offering secure and comfortable carry for concealed or duty use, and ensuring quick and reliable access to the firearm.

Slim Sling

The Slim Sling is a no-nonsense piece of equipment for end users that need a dependable and comfortable sling option. The 1" webbing construction incorporates key features from real world experience to provide a minimalist sling with intuitive operation. The quick adjust system enables rapid transition from carrying a slung rifle comfortably to a stable combat ready shooting position.

A compact and durable pouch designed to securely hold a tourniquet for rapid access during emergencies. Easily attach it to your MOLLE compatible gear!

Tourniquet Pouch

Secure storage for a tourniquet, ensuring rapid access during emergencies. Its durable construction and MOLLE compatibility make it ideal for tactical use in various environments.

IFAK Pouch VL L

Versatile and secure storage for essential medical supplies, ensuring quick access during emergencies. Its rugged design and MOLLE compatibility make it suitable for tactical use in demanding environments.

Warrior Belt MK IV

A belt offering reliable lumbar support and attachment points for gear during tactical operations. Featuring a durable construction and adjustable fit, it ensures comfort and functionality in dynamic environments.

Belt Padding M&P

Offers comfortable support and additional padding for tactical belts during extended wear. Its ergonomic design ensures enhanced comfort and stability during missions and activities.

Modular Combat Pack 24 SL MC

A versatile and durable backpack designed for tactical use, featuring modular compatibility for customization. With its ergonomic design and ample storage space, it provides optimal functionality and comfort for extended missions.

RedMan

TRAINING GEAR

XP Instructor Suit

Comprehensive protection and mobility for training scenarios, featuring durable construction and ergonomic design. Ideal for law enforcement and military training, it ensures safety and comfort during dynamic exercises

XP Student Suit

Durable and protective padding for martial arts training, ensuring safety without hindering mobility. Its lightweight design and adjustable fit make it ideal for students of all levels to practice with confidence.

XP Body Guard

Its cooped neck allows for greater mobility of the head and neck. Additional Velcro at shoulder attachment provides a more secure fit. Maneuverable design allows Body Guard to move and glide smoothly over the equipment positioned beneath it.

Traditional head kit

Provides comprehensive protection for head and face during law enforcement and military training exercises in high-intensity scenarios.

Designed and Made in the USA
All BRINC products are fully designed, made and
assembled in our Seattle based headquarters.

Taipan

Synonymous with reliability and simplicity. Equipped with a 12-micron thermal sensor and LCOS screen, ideal for hunters and outdoor enthusiasts detecting in complete darkness.

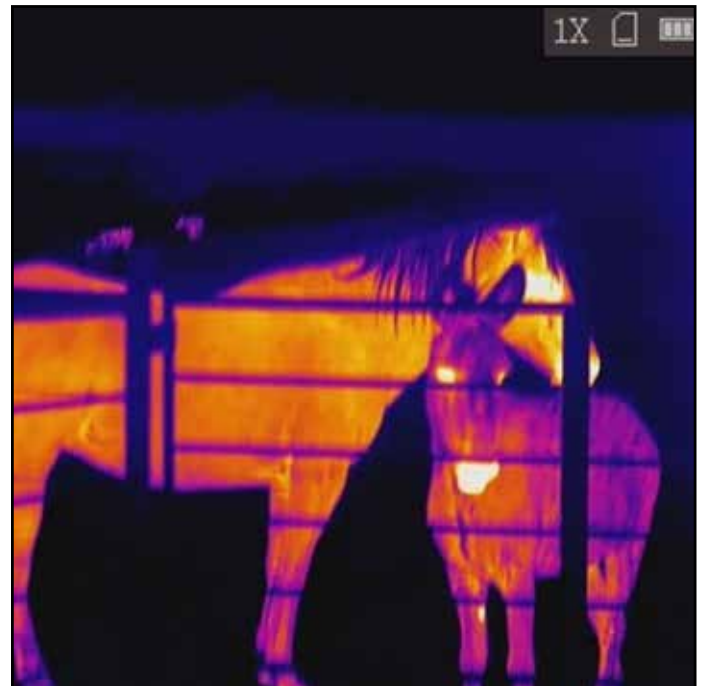

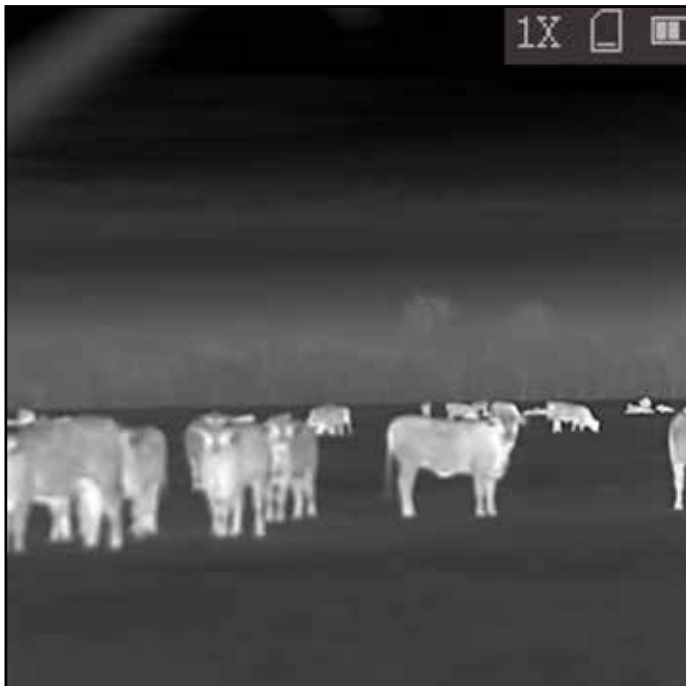

ASP-Micro

A compact and versatile thermal monocular designed for various applications, offering clear and detailed imaging in low-light conditions. A great fit for surveillance, hunting, and outdoor exploration.

Sidewinder

A compact and versatile thermal monocular, providing clear imaging in low-light conditions. Ideal for surveillance, hunting, and outdoor exploration, it offers reliable performance in a portable design.

ADOS | PRO[®]

ADVANCED DIGITAL OPTICAL SYSTEMS

ADS-655

The ADS-655 thermal weapon sight has a proven range detection performance of 2500m, which makes it ideal solution for medium and heavy machine guns.

ANM

Night vision monocular

ANG

Night vision goggles

ANVS-25

ANVS25 digital night sight provides night/day visibility for the user. Integrated IR, pointer, illuminator (850 nm).

Electro Hydraulic Breaching Kit GEN3

A comprehensive, battery-powered hydraulic breaching tool kit comprising four engineered tools. With quick attachment to the hydraulic hose, these tools are instantly operational, controlled by a hose-mounted unit for ease of use.

RatPak Breaching Tool Kit w/ Backpack

A durable Cordura backpack with adjustable straps, housing a 30" pry bar, an 8lbs sledge hammer, and a 30" bolt cutter - offering convenience and portability for various breaching scenarios.

16' / 4.8m Telescoping Ladder

Robust aircraft-grade aluminum ladder, supporting up to 300 lbs with a 16' tactical reach. With easy storage and patented one-touch release mechanism, this tool ensures safety and convenience for tactical use.

All-in-one Breaching Training Door Gen 2

Allows for continuous forced entry training with adjustable resistance without the need for replacement parts. Its innovative «Crushable Door Panel» ensures realistic pry training, suitable for various breach scenarios.

Life Depends on Light™

LGL Series

Powerful illumination with long-lasting LED technology, ideal for tactical and outdoor use. Featuring durable construction and versatile mounting options, they provide reliable lighting in various situations.

TWM-852XL

An 850 lumens lamp featuring a concentrated beam for enhanced visibility and target identification. Built for tactical use, its durable construction ensures reliable performance in demanding environments.

TWM_854XL

A rifle-mounted light delivering 850 lumens of illumination with a focused beam, controllable through its ambidextrous switch.

TWM-30

A tactical Weapon-Mounted Light offering 1200 lumens and a 194-meter beam for precise threat identification and target discrimination. Enhanced switches enable easy access to multiple functions.

Specialist Covert Single Rifle Case

A discreet and secure transportation bag for your firearm, featuring durable construction and ample padding for protection. With a sleek design and multiple carrying options, it ensures convenient and covert storage during travel or outdoor activities.

Urban Takedown

A compact and versatile rifle case designed for discreet transportation and storage, featuring customizable interior compartments and durable construction.

Specialist - Pistol Case

This case offers rugged protection and organization for your handguns, featuring customizable foam inserts and durable construction, as well as secure locking mechanisms, for the convenient transportation of your firearms.

Wall Rack System

Secure and organized storage for firearms, offering customizable configurations and sturdy construction. With easy installation and versatile mounting options, it ensures convenient access and display of your firearms while optimizing space.

H.A.B. Rack - Tactical Gear Stand

Efficient organization and display for tactical equipment, featuring durable construction and customizable configurations. With its space-saving design and sturdy build, it provides easy access to gear while keeping your space neat and organized.

Folding Shooting Mat

Comfortable and durable padding for shooters, with a foldable design for easy transportation and storage. Featuring water-resistant materials and ample space for accessories, it ensures reliable performance in various shooting environments.

SERVICES

Armed Response Vehicle -Tactical Intervention Shield

EFLX Mini Red Dot Sight

Designed for precise aiming with its compact design and crisp red dot reticle. It offers versatile mounting options and reliable performance in various shooting scenarios.

HWS

The HWS offers rapid target acquisition and precise aiming with its holographic reticle technology. Engineered for durability and versatility, it provides reliable performance in demanding shooting conditions.

G33

With its 3x magnification and durable, compact design, the G33 offers quick and easy transition between close-quarters and long-range engagements.

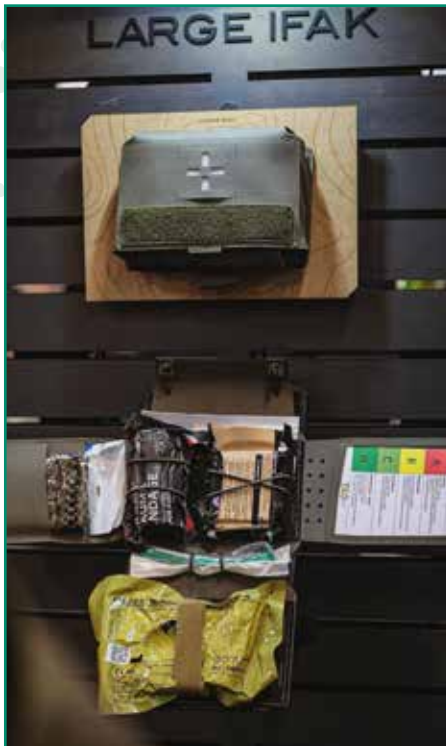

EXPS

Delivers rapid target acquisition and precise aiming with its compact design and large field of view. Featuring advanced reticle technology and rugged construction, it ensures reliable performance in various shooting conditions.

TERRA B

Leader pouch

A versatile pouch designed for tactical use, featuring a MOLLE panel, secure closing options and customizable inserts for organizing navigation tools, medical supplies, or EDC gear.

Small IFAK

Designed to carry essential supplies for primary care of life-threatening injuries, making it ideal for everyday carry, low-profile missions, or when minimizing equipment weight is necessary.

Medium IFAK

A compact, functional, and easy-to-use kit tailored for initial trauma care in emergencies, featuring a thoughtfully designed layout and high-quality materials for reliable support.

Discreet Plate Carrier

A lightweight and durable discreet plate carrier, designed specifically for the range as well as discreet and direct action applications. Can be customized, including the addition of padding, a cummerbund, etc.

Marauder

High-performance tactical sunglasses featuring durable aluminum frames, impact-resistant lenses with ANSI Z87+ certification, and adjustable nose pads for a customizable fit.

Delta

A high-performance sunglasses model crafted from aerospace-grade aluminum alloy, featuring impact-resistant polycarbonate lenses with anti-scratch and anti-fog coating as well as adjustable nose pads and temple arms.

Magnum

A robust aluminum frame with adjustable features and precision lenses ensuring distortion-free vision, making it the perfect choice for both outdoor adventures and tactical missions.

Blastshield

Sunglasses featuring ballistic-grade polycarbonate lenses with anti-fog and anti-scratch coatings, along with a durable aluminum frame for impact resistance and compatibility with Gatorz sunglasses.

Training Equipment

Tri-Fold Handcuffs

A compact design for convenient carry and storage, with triple hinges offering increased strength and security during restraint. Ideal for law enforcement and security professionals.

Red Gun Pistol (No Drop Mag)

Non-functional training replica designed to mimic the size, shape, and weight of a real firearm for safe and effective training purposes.

Warq Pro Helmet

A high-performance protective headgear designed for tactical and airsoft applications, featuring a lightweight yet durable construction for maximum comfort and safety.

Red Gun Training Knife

A non-sharpened, realistic replica designed for safe and effective training in defensive tactics and martial arts.

North American Rescue - Blue Tourniquet

This fully functioning Gen 7 C-A-T® tourniquet is colored blue to identify it as a training device enabling instructors and trainees hands-on training & tourniquet application practice with a distinct visual means to distinguish training devices from personal/operational life-saving devices.

Breaching Training Door

This innovative, multi-use breaching training door allows for continual forced entry training without the downtime and cost of consumables found on other doors
